

Monza Center Shaft

See Better, Roll Better, Putt Better

FEATURES	ADVANTAGES	BENEFITS
Superior linear alignment system	Makes it simple to aim and roll the ball on the intended line	Improved accuracy
CGB Pipes made of Titanium and precision-filled with tungsten	Contributes to exceptionally low, deep CG	Optimized launch conditions for smoother roll
Titanium face insert	Saves weight that can be allocated to the perimeter; unmatched soft-yet-crisp feel	Increased MOI for greater forgiveness; superior touch and control
Forged 6061 aluminum precision-milled and anodized	Rich black color	Cosmetic appeal; excellent durability
Center shafted	Easy to square the putter face at impact	More accurate putting
