

Monza® Spider Forgiveness and Accuracy in a Midsize Head

HEAD DESIGN

Midsize Contemporary MOI mallet design. The ultimate in performance and stability. The MOI is 5500 with movable weight technology. The wire frame provides less twisting for mis-hits and the aluminum core provides the weight distribution. Features our patented AGSI®+ insert.

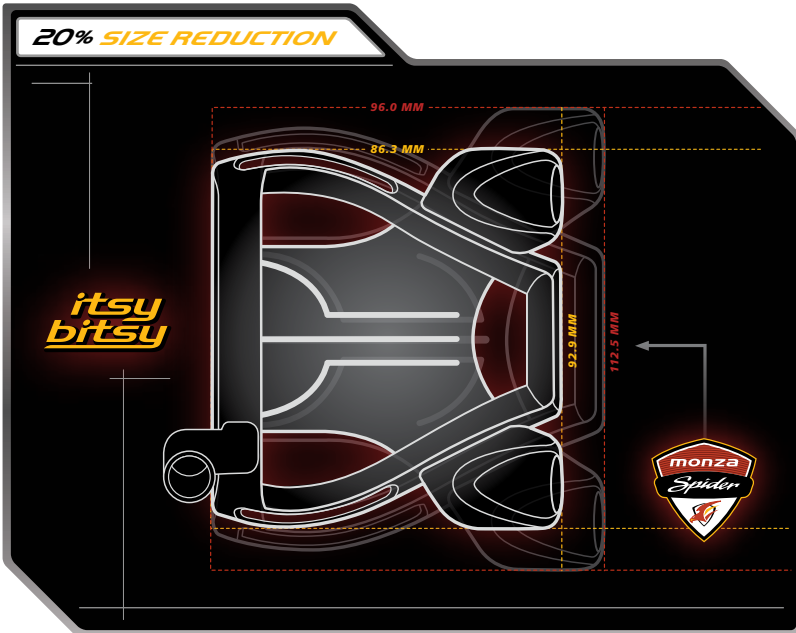

FEATURES	ADVANTAGE	BENEFIT
20% Smaller head size compared to original Monza® Spider	For players who prefer a midsize putterhead	Monza Spider forgiveness and accuracy available to a wider range of players.
Steel wire-frame construction	Positions more weight on the perimeter (236 g)	Boosts MOI for consistent distance on off-center hits
Light and strong aluminum core	Lower density material (91 g)	Allows for mass-redistribution
MWT® with two movable weights	Permits the user to change the head weight	Customizable feel
AGSI®+ Titanium face insert	Promotes forward spin for smoother roll off the putterface	Increased directional and distance control
