

# RESCUE WITH A TWIST

The first ever Rescue club with Twist Face will produce longer and straighter shots regardless of impact location. Paired with our new sole design, which improves turf interaction, M6 Rescue will be one of our longest and most versatile hybrid club to date.”

Bret Wahl | Vice President Product Development

## TWIST FACE

- First time in a hybrid for straighter and longer mis-hits
- Twist Face is a revolutionary face curvature with a corrective face angle on off-center hits, engineered to reduce side spin and deliver straighter shots

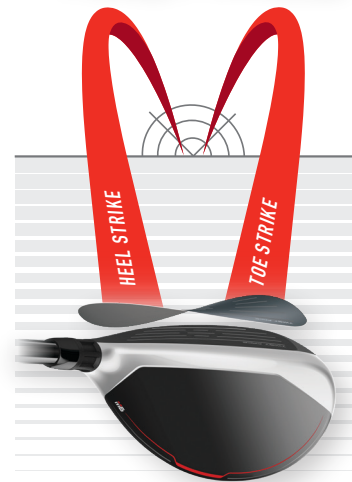

## LOW-CG, STEEL-BODY CONSTRUCTION

- Thin, fast face for improved ball speed ad overall distance
- Stepped crown for lower CG and easy alignment

## ADVANCED SPEED POCKET DESIGN

- New TPU slot insert is more flush with the surface for improved turf interaction
- Improved slot flexibility for a larger COR area, and better off-center performance, especially on low-face strikes

## TWIST FACE

## SHAFT GRIP
