

Instruments of Rare Beauty and Performance by Master Putter Craftsman KiaMa

HEAD DESIGN

100% milled from 1020 carbon steel. Designed by KiaMa from TaylorMade's tour department. Some of the putters feature micro weighting in the back cavity to perfectly position the center of gravity behind the sweetspot.

FEATURES	ADVANTAGE	BENEFIT
Five classic shapes – three blades, two mallets	Memorable, beautiful and clean	Appeals to a wide variety of classic putter fans
100% precision-milled	Every curve, corner and surface is perfectly rendered	Gives each head the look and feel of a finely crafted instrument
New Midnight Black finish	Sleek and alluring appearance	Fantastic shelf appeal
