

M4 TOUR FAIRWAY

MAXIMIZED DISTANCE WITH TOUR-INSPIRED WORKABILITY

Compact yet powerful, the all-new M4 Tour fairway blends distance and workability in a package that suits the eye of the better player. Additionally, the sole has been shaped with a curved leading edge to provide exceptional versatility from various lies—whether golfers are attacking par 5s in two or threading the needle off the tee.

BRIAN BAZZEL | VICE PRESIDENT | PRODUCT CREATION

OPTIMIZED LAUNCH CONDITIONS

- Speed Pocket technology creates more ball speed across the clubface for more distance and a penetrating trajectory
- Split-weight mass pads provide increased MOI and perimeter weight distribution for better stability
- Ultra-strong Ni-Co 300 steel face insert allows for a thinner, faster face for optimized ball speed

LOWER, POWERFUL CG PLACEMENT

- 5-layer carbon crown creates a lower CG by saving 8 grams, driving higher launch while reducing spin
- Fluted Hosel provides superior sound and feel without compromising CG location

PLAYABILITY THROUGH GEOACOUSTIC TECHNOLOGY

- Smaller overall shape provides a more compact look at address preferred by the better player
- The sole and leading edge profile provides Tour-inspired workability and versatility from the fairway and from difficult lies
