

MYTHICAL PERFORMANCE

FEATURES:

- **BIG FOOT WIDE SOLE**
- **DEEP CG POCKETS**
- **HI-TOE DESIGN TECHNOLOGY**
- **FULL FACE SCORING LINES**

FEATURE	BENEFIT
Big Foot Wide Sole	This asymmetric C-Grind sole is flatter and wider at 32mm. Combined with an anti-dig leading edge enhances playability and ease of use from the sand and rough. The 15° high bounce has trailing edge and heel relief keeping the leading edge low and allows for versatility
Deep CG Pockets	Allows for redistribution of mass, designed to increase spin and flight control
Hi-Toe Design Technology	Increasing toe height upwards of 5mm allows a higher center of gravity that is engineered for a lower launch and more spin
Full Face Scoring Lines	Designed to ensure consistent ball contact out of the deep rough and increase spin on off-center strikes
Milled Grind	Milled Grind wedges ensure precision where it matters most. Patent-pending process maximizes consistency when crafting each sole
Aged Copper Finish	This unique finish is subject to oxidation and will darken over time
