

rac Forged 
**Designed with Input and
 Feedback from Tour Pros**

FEATURES	ADVANTAGES	BENEFITS
Designed with the input of tour professionals	Invaluable recommendations for improving the look, feel and performance of the rac Forged TP	The best-looking, feeling and performing player's iron that TaylorMade has ever created
Coin-forged of S25c carbon steel, a prestigious forging material	Optimized execution of "muscle-cavity" design	Combines keen workability with excellent forgiveness
Improved rac technology characterized by larger Feel Pockets	Enhanced vibration control	Even better feel than ever
Milled grooves	Delivers consistent spin-rate from club to club	Excellent distance control
Milled clubface and cavity	Increases spin control and optimizes CG location	Makes it easy to launch the ball on a low, controllable trajectory
Tour clubhead design with slender top-line and minimal offset	"Visual confirmation" at address	Creates confidence in performance and playability
Thin, tour-beveled sole and leading edge	Reacts beautifully with the turf at impact	Promotes pure club-to-ball contact for enhanced distance and accuracy
Dynamic Gold steel shaft	Tour-caliber response and control	Accuracy and precision shotmaking

TECH INSIDER

Thin top line, progressive offset and great shape instantly increase confidence at address
